

Decision form

Mentor decision form

One page. Each item needs a decision, not a comment. Nothing below is pre-filled, and nothing in this repository records a decision that was not made by a person.

Scientific corrections

#	item	decision needed	your call
G-1	The bridge Φ and its left inverse, exact over F_p , equivariant under Clifford reflections	confirm / correct / reject	
G-2	The oscillator frame's real form is split (5,5), not Euclidean $SO(10)$. This overturns a previously recorded blocker	confirm / correct	
G-3	$\dim_Q D10 = 11$ and $\dim_Q Q10 = 3$, by exact rational closure rather than at good primes	confirm / correct	
G-4	The degree-8 tensor-word family supplies the direction the port-graph family misses	confirm / correct	

Credit

#	item	your call
C-1	Is the certificate for rank 81 a contribution, given the count is yours and your coauthors'?	

#	item	your call
C-2	Who, if anyone, should be credited for the exact characteristic-zero certification?	
C-3	The spinor archive's author contributed the candidate selection. Authorship, acknowledgement, or neither?	
C-4	Has that person been contacted? Should they be, and by whom?	

Claim language

#	proposed wording	your call
L-1	“Previous work developed graph enumeration, evaluation on generated tensor data and relation finding for tensor-invariant discovery. The present work gives an exact and certified realization for the ten-dimensional self-dual five-form...”	accept / rewrite
L-2	Degree 12 excluded from title, abstract and central claims	accept / object
L-3	No physical or Type IIB consequence drawn from the flow result, because PO-07 is open	accept / object
L-4	B10 and B10 P10 carry “at the tested primes”; A10, G10, P10, D10, Q10 do not	accept / correct
L-5	The Q10 basis is “preferred ambiguity-minimal”, never “ambiguity-robust”	accept / correct

Open items only a person can close

#	item	your call
P-1	PO-04: the K6 / Sigma_2 change of basis is inferred. Ask the authors?	

#	item	your call
P-2	PO-11: bracket colour in equation (4.24). Do you have a colour source?	
P-3	Software licence. Which one?	
P-4	Is the degree-10 result allocated to this paper or held for the Letter?	

Overall

Is this ready for coauthor circulation? yes / no / after the items marked above

Is the AI-assistance disclosure accurate and sufficient?

Anything you want removed before anyone else sees it?
